

ORACLE RETAIL

INTRODUCTION TO RETAIL PREDICTIVE APPLICATION SERVER (RPAS) CONFIGURATION BOOT CAMP

This Boot Camp is designed to provide participants with an introduction to the RPAS Configuration Tools, business building block concepts to support RPAS structural design, and configuration of a simple planning solution.

What will we cover:

This hands-on session will include many RPAS Configuration topics that support the building of RPAS-based solutions.

Learn To:

- Understand how business concepts can translate into basic building blocks of an RPAS solution
- Understand the business process definition requirements necessary to support the Design / Configuration requirements associated to the building of business solutions
- Apply basic configuration skills leveraging the RPAS Configuration Tools set
- Understand the RPAS Fusion Client

Duration:

The Boot Camp is instructor-led via Live Virtual access and has been created to span 5 days.

Note: The duration is intended for general reference. All content created will be delivered as intended for successful knowledge transfer. The Boot Camp instructor may adjust the session based upon the pace of the class and the needs of the participants. Overall daily agendas may vary by region effecting the overall scheduled agenda – including start / end times. Please be sure to reference all materials to ensure your complete participation.

Students are required to participant for the full duration and will not be permitted to join post start to ensure a good learning experience for all participants.

Level of Enablement:

At the successful completion of the session participants should be able to act in a participant role for an RPAS-based solution implementation.

Audience:

- Sales Consulting / Pre-Sales
- Functional Implementation Consultant
- Configuration Implementation Consultant
- Technical Implementation Consultant

Level:

Entry Level Courseware

Prerequisite Training and Environment Requirements:

- Knowledge of retail math and basic planning business processes
- Participants will be required to provide their own laptop. Laptops will require access to the Internet through Remote Desktop via Windows.

Agenda Topics:

- Retail Predictive Application Server
