

## ORACLE RETAIL ORDER MANAGEMENT SYSTEM TECHNICAL BOOT CAMP

*This Boot Camp is designed to provide participants with an in-depth review of common integrations and other technical considerations associated with Oracle Retail Order Management System Cloud Service (OROMS) V15, an omni-channel retail solution that provides robust order management functionality for many leading retail brands.*

### **What will we cover:**

This hands-on session will include many technical topics that support OMS where participants will learn common integration points with the order management application.

### **Learn To:**

- Understand guidelines for developing integrations with the cloud OMS application
- Identify common system imports such as items, purchase order data, and the mechanism used to import data in the cloud environment
- Understand the data points that integrate with a warehouse management system
- Understand OCP, OCC, and generic eCommerce integration points
- Manage exporting sales information used in a General Ledger or Sales Audit application
- Describe the various integration points surrounding customer returns
- Describe the integration points and configuration with the Oracle Retail Customer Engagement application
- Configure OMS to integrate with the Oracle Retail Order Broker application
- Understand what common authorization integration questions to ask when planning an OMS implementation

### **Duration:**

The Boot Camp is instructor-led via Live Virtual access and has been created to span 5 days.

*Note: The duration is intended for general reference. All content created will be delivered as intended for successful knowledge transfer. The Boot Camp instructor may adjust the session based upon the pace of the class and the needs of the participants. Overall daily agendas may vary by region effecting the overall scheduled agenda – including start / end times. Please be sure to reference all materials to ensure your complete participation.*

*Students are required to participant for the full duration and will not be permitted to join post start to ensure a good learning experience for all participants.*

### **Level of Enablement:**

At the successful completion of the session participants should be able to act in a technical participant role for an OMS implementation.

**Audience:**

- Configuration Implementation Consultant
- Technical Implementation Consultant

**Level:**

Intermediate Level Courseware

**Prerequisite Training and Environment Requirements:**

- Recommended for participants to attend Oracle Retail Order Management Systems Functional Boot Camp.
- Participants will be required to provide their own laptop. Laptops will require access to the Internet through Remote Desktop via Windows.

**Agenda Topics:**

- Introduction and Review of Functional Topics
- General Integration Concepts
- Merchandising System Integration
- WMS Integration
- Web Integration
- Sales and General Ledger Integration
- Returns Integration
- Customer Engagement Integration
- Order Broker Integration
- Authorization Integration
