

ORACLE XBRI CLOUD SERVICES FUNCTIONAL BOOT CAMP

This Boot Camp is designed to provide participants with an in-depth review and hands on lab exercises of Oracle Retail V15 XBRI Loss Prevention Cloud Service, which is the world's most widely used loss prevention and store data analysis tool. Oracle Retail XBRI Loss Prevention Cloud Service is an intuitive, intelligent and global analytical reporting solution that is designed to quickly identify suspicious trends, transactions, and other data anomalies. Oracle Retail XBRI Loss Prevention Cloud Service allows easy user access, dynamic functionality, and forensic analysis to make more-informed decisions with timely, data-driven answers to business questions and to protect the bottom line.

What will we cover:

This hands-on session will include many Functional topics that support XBRI.

Learn To:

- Demonstrate how XBRI reporting will benefit Loss Prevention, Sales and Productivity
- Understand how to manage prompts, calendars, and apply hierarchies
- Understand how to manage data by drilling, linking, and editing report links on the fly
- Understand how to format and enhance reports
- Understand how to save and store report results
- Manage report subscriptions
- Manage dashboard properties
- Understand the purpose and benefit of exceptions
- Understand how to manage controls and control links
- Manage security and administrative functions

Duration:

The Boot Camp is instructor-led via Live Virtual access and has been created to span 5 days.

Note: The duration is intended for general reference. All content created will be delivered as intended for successful knowledge transfer. The Boot Camp instructor may adjust the session based upon the pace of the class and the needs of the participants. Overall daily agendas may vary by region effecting the overall scheduled agenda – including start / end times. Please be sure to reference all materials to ensure your complete participation.

Students are required to participant for the full duration and will not be permitted to join post start to ensure a good learning experience for all participants.

Level of Enablement:

At the successful completion of the session participants should be able to act in a participant role for an XBRI implementation.

Audience:

- Configuration Implementation Consultant
- Functional Implementation Consultant
