

# ORACLE RETAIL XSTORE CONFIGURATION BOOT CAMP

Oracle Retail Xstore Point of Service (ORXPOS) V15 Java POS is a flexible, fast, and powerful software solution. With Xstore, the store associates can process transactions quickly, respond to inquiries efficiently, extend personalized offers based on customer history, and provide the personal touches with in-store clienteling that are certain to strengthen customer loyalty. In this Training Program you will gain a detailed understanding of the Xstore end-user functionality along with the technical framework of the application.

## What will we cover:

In this hands-on session you will gain an overview of the ORXPOS V15 framework and will enable the trainee to have a better understanding of Product Functionality and Configuration in the ORXPOS suite of products.

## Learn To:

- Get an understanding of the application, its configuration points, application functionality and its core architecture
- Understand the installation process of Oracle Retail Xstore Point of Service
- Understand the integration points in the application
- Understand the Xstore application & framework
- Understand the Project Overview including the BIA, Configuration Questionnaire & Security Matrix
- Understand a client's project overlay including templates, source control & software build processes
- Configure Xstore, including menu, form, receipts, lists & reporting
- Configure Xstore functional attributes including, deals, discounts, taxes, item pricing & reason codes
- Understand Xstore International capabilities
- Understand how to use Xstore Office (Xadmin) to configure Xstore POS, including Roles, Users, Security access, settings, configuration manager, data management, EJ, reports, support tools, deployments
- Demonstrate and enable the application to benefit the Retailer
- Get a working knowledge concerning ORXPOS and how it is implemented

## Duration:

The Boot Camp is instructor-led via Live Virtual access and has been created to span 5 days.

*Note: The duration is intended for general reference. All content created will be delivered as intended for successful knowledge transfer. The Boot Camp instructor may adjust the session based upon the pace of the class and the needs of the participants. Overall daily agendas may vary by region effecting the overall scheduled agenda – including start / end times. Please be sure to reference all materials to ensure your complete participation.*

*Students are required to participant for the full duration and will not be permitted to join post start to ensure a good learning experience for all participants.*

## Level of Enablement:

At the successful completion of the session participants should be able to act in a participant role for a Implementation Consultant with an understanding of the functional and technical aspects of the ORXPOS application.

## Audience:

- Functional Implementation Consultant
- Configuration Implementation Consultant
